

XINGTONG (LOUISA) LIN

xingtonl@andrew.cmu.edu | 412-608-5710 | <https://www.linkedin.com/in/lxt/>

EDUCATION

Carnegie Mellon University

Bachelor of Science in Neuroscience (Computational Neuroscience Track)
Additional Major in Biomedical Technology, Minor in Business Administration
GPA: 3.72 / 4.0

Pittsburgh, PA
May 2028

Selected Coursework: Introduction to ML for Biomedical Engineers (Graduate), Brain-computer Interface: Principles and Applications (Graduate), Professional Issues in Biomedical Engineering (Graduate), Matrices and Linear Transformations, Probability Theory and Random Processes, Imperative Computation, Physiology, Honors Modern Biology, Biomedical Engineering Laboratory, Operations Management

WORK EXPERIENCE

Next Capital

Venture Capital Fellow, Part-time

Pittsburgh, PA (Remote)
July 2026 - Present

- Source and screen 5+ early-stage companies weekly across AI, robotics, semiconductors, and advanced hardware through founder outreach, university and lab networks, accelerators, and targeted market mapping.
- Conduct founder diligence calls and prepare structured post-call screening briefs assessing product and technical moat, customer traction, business model, team, cap table, financing, competition, and key risks.
- Recommended 3+ opportunities for further investment-team review based on fund fit, commercial validation, technical differentiation, and unresolved diligence questions.
- Built CMU ecosystem engagement by organizing a 30+ attendee AI and Robotics event and coordinating external outreach, speaker logistics, and on-campus execution.

Glnovo

Overseas Business Development Intern

Pittsburgh, PA (Hybrid)
February 2025 – June 2025; June 2026

- Invited back to represent Glnovo at the ADA Scientific Sessions 2026, presenting CGM products and engaging prospective distributors and partners from Canada, Switzerland, the Caribbean, and South America.
- Advanced qualified booth inquiries to follow-up partnership discussions by documenting regional needs and transferring leads to the commercial team.

CMU Student Academic Success Center

Supplemental Instruction Leader for Physiology and Modern Biology

Pittsburgh, PA
August 2025 - Present

- Design practice materials and lead group sessions that translate complex concepts into clear, actionable explanations for students with varied backgrounds.

Stealth Startup

Product Design Intern

Pittsburgh, PA
September 2024 - January 2025

- Designed and proposed comprehensive product flow diagrams for pre-launched startup, defining core user interactions and guiding the development of initial UI

RESEARCH EXPERIENCE

Biomedical Engineering Department, Carnegie Mellon University

Research Assistant; P.I. Dr. Bin He

Pittsburgh, PA
May 2025 - Present

- Support EEG experiments through electrode-cap preparation and fitting, and assist with data preparation for deep-learning-based neural signal analysis.

Biological Sciences Department, Carnegie Mellon University

Pittsburgh, PA

Research Assistant; P.I. Dr. Eric Yttri

January 2025 - Present

- Developed a Python/MATLAB trial-transition analysis comparing rewarded and unrewarded trials; identified reproducible opposing D1-striatal activity shifts across animals, and the lab adopted the analysis for follow-up studies.
- Independently conducted daily mouse behavioral experiments in a 27-port open-field arena and trained PhD researchers on behavioral protocols and data organization.
- Conducted behavioral and neural data analysis through CMU's 2025 SURF program and presented *Decision Making Along a Semi-continuous Dimension in an Open Field Arena* at CMU's Meeting of the Minds symposium.

Materials Science Department, Tsinghua University

Beijing, China

Research Assistant; P.I. Dr. Xiumei Wang

May 2025 - August 2025

- Performed techniques for cell cultivation (NSC, Neuroglia, HAPI, HUVIC) and hydrogel related experiments

LEADERSHIP EXPERIENCE

CMU Chinese Students Scholars Association

Pittsburgh, PA

External Relations Committee Member of the Career Department

August 2024 – Present

- Coordinated employer outreach with companies including Midea and Longfor Group to support campus recruiting and student career opportunities.

HONORS

- Mellon College of Science Dean's List Fall 2024, Spring 2025, Fall 2025
- Mellon College of Science Dean's List High Honors Fall 2024, Fall 2025

SKILLS

Investment: Deal sourcing, Company screening, Market and competitive research, technical and commercial assessment

Business Tools: Microsoft PowerPoint, Microsoft Excel, Microsoft Word

AI Tools: Codex, Gemini, Claude Code

Programming Languages: Python, C, MATLAB

Languages: Mandarin (Native); English (Proficient), Cantonese (Intermediate), Spanish (Beginner)
